Search #FishKN to find up-to-the-moment tips and best sites to fish.

A YEAR-ROUND EXPERIENCE

Ice fishing is the perfect opportunity to take the family out for some winter fun. It's great for couples and has become a girl's getaway event as well. While out on the ice, you may angle for bluegill, yellow perch, black crappie, lake trout, northern pike, and enjoy some quality time together. Anglers consider this region to be one of Ontario's finest ice fishing destinations.

FISH KAWARTHAS NORTHUMBERLAND

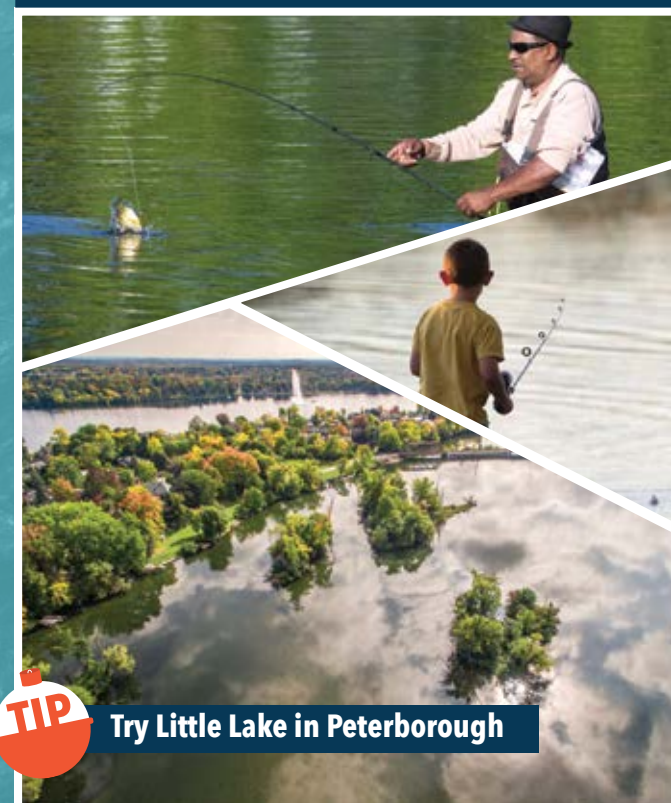

WORLD CLASS COMMON CARP FISHING

Kawartha Northumberland is home to world class common carp fishing. This warm-water species, introduced in the 1800s, has thrived in the Trent-Severn Waterway that bisects our region. With abundant populations and no harvest limits, there is no excuse not to seek out this large bodied fish. If that isn't enough...

20lb carp are not uncommon too!

Explore Kawartha Northumberland to land this challenging and thrilling catch.

Try Little Lake in Peterborough

LIMIT YOUR CATCH

By law, there are set limits and restrictions on the fish you can legally catch and keep in Ontario. Each species has its own limits and restrictions for what you can keep, depending on the type of fishing licence you buy (conservation or sport), the fishing zone (15 & 17) and waterbody, the size of the fish and time of year. Be sure to check before you head out!

Zone 17 Limits

Type	Sport	Conservation	Season Dates	Size Limits
Common Carp	None	None	All Year	None
Walleye/ Pickerel	4	1	May 13 – Nov 15	Must be between 35–50 cm (13.8–19.7 inches)

For a sure catch with the kids, head to Lake Scugog for panfish (lots of black crappie and bluegill ready to bite!)

KEEP IT SIMPLE!

#1 CHOICE Hook, Bobber + Worm

#2 CHOICE
Spinner Baits

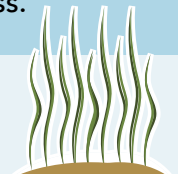

Try **metallic / silver/ bright yellow** colours

Cast Near a "Structure"
(hump, point, rock pile, sunken island) to catch panfish and bass.

Cast along submerged weedlines to catch walleye and muskie.

ANGLER CHRIS' CHOICE! TOP 3 FISHING LOCATIONS IN KAWARTHAS NORTHUMBERLAND

3

Burnt River (See reverse map)

Launch your boat in Kinmount and make your way up the river. If you have a small boat or canoe, walk it down below the dam in Kinmount and make your way down stream. Be prepared to portage a few narrow sections of the river along the way. But trust me. The effort is well worth it. Not only is the scenery absolutely majestic but several fish species reside within the river and are seemingly always willing to bite! Walleye, large and smallmouth bass as well as muskies abound!! In high numbers and size! Your arms will be sore from reeling in fish!

2

Stony Lake (See reverse map)

Launch your boat at the public launch directly adjacent to Viamede Resort at the end of Mount Julian Viamede Rd and let the adventure begin. Known as one of the most prestigious lakes in the region Stony offers some of the most picturesque landscape in the world! Not only is it an absolute pleasure to view but the lake also boasts a very healthy fishery! The bass, walleye and muskie populations are VERY good! I just recently fished a tournament event on the lake and over the course of the three days my tournament partner and I landed upwards of 300 smallmouth bass!!

1

Belmont Lake (See reverse map)

Launch your boat at the end of Mile of Memories Lane. Be sure to keep an eye open for wildlife on the way in as there are often deer grazing in the fields or wild turkey running about. This hidden gem of a lake is absolutely loaded with good sized pike and the occasional monster muskie. The bass fishing, both largemouth and smallmouth, is phenomenal. And did I mention the walleye population is just ridiculous! Located near Havelock Ontario with travel times to town being 15-25 minutes on average. Travel time to the Greater Toronto Area is within 2 hours making this lake a very popular spot for those escaping the city for vacation rentals even during the off season! The size of Belmont Lake is 1872 acres with a maximum depth of 51 feet and mean depth of 20 feet. Belmont Lake is part of the Crowe River system, the Crowe (Deer River) enters the lake at the north from Cordova Lake, the North River enters from Round Lake and then exits as the Crowe River to the east heading into Crowe Lake. Just a beautiful little lake that offers some of the best fishing in the region!

Shhhh.. don't tell anyone!

GUIDES: Over a dozen guides and outfitters are ready to give you the catch of a lifetime. These knowledgeable and friendly local anglers will ensure you have a safe and enjoyable day on the water.

BAIT & TACKLE: Need worms, minnows, or your favourite lure replaced? Your local bait shop is never far away.
